# SINGLE SEATERS 2003

## CHAMPIONSHIP CHARTS

HOUILLES, FEVRIER 2004

*Last update: January 31<sup>st</sup> 2006*

*published on [www.gdecarli.it](http://www.gdecarli.it) with kind permission*

## FOREWORD

All single seater formulae, from F3 and upper, are covered in details : every practising driver is registered.  
From Formula Toyota-Atlantic & upper : tested drivers are also registered.  
From Formula 3000 & upper : closely linked drivers to these formulae are also mentioned when significant.  
Feeding formulae (lower than F3) are quickly reviewed : only the successful drivers are registered — all the race winners when a main series, only the final champion when not.

**Principle** : Race by race charts with the bare results — no qualifying position or time, nor averages, lap leads, fastest laps, race distance, money won...

**Beware** : These are not point charts, but compilations of the actual finishing positions — each point system is described besides each chart.

### Special for American Supermodified & Sprint cars :

Only a few drivers are registered, mainly the series series. If we have tried to list all entrants for all races, it should have led to triple the volume of this file...

### Special for hill climbs (& a handful of circuit series) :

But exception (e.g. British championships), sportscars & touringcars are never mentioned, nor the formula cars lower than F3. We only publish the single-seater class ("D" and/or "E") results when official ; if there is no official single seater class, we have revised the results, erasing SP, Tr & minor formulae entrants (but significant overall winners). Hence it is possible to have 2 winners for the same event ! When the case, the overall one gets a bold number 1 while the single seater class winner gets a meagre number 1. It is too the reason why some standings look like uncomplete ones.

### Abbreviations used in the charts :

**Bold** : drivers who actually started at least one race.

Standard : drivers who actually drove the car, without starting any race, including tested drivers.

*Italics* : drivers entered but never drove the car, even in testing.

Underlined : drivers new in the category.

alt = alternative driver — c = class result — dna = did not appear — dnp = did not practise — dnq = did not qualify — dns = did not start — dsq = disqualified — hill = hill-climb event (when within a circuit series) — n c = not classified — n ch = non championship event — p = practised — R = retired — ® = official Rookie — s = suppleant (reserve) driver — x = results not available — \* = retired but classified — + = visitor to a series — ( = results outside of the presently registered classes

### Colour code :

**Grand Prix (F1)** — **Champ cars & indy cars** — **formule libre** — **Big cars (sprint & dirt)** — **Second-hand Champ & Indy cars** — **"Intermediate" formulae (between Premier league & Voiturette)** — **Voiturette (Formula 3000, Formula Nippon)** — **principal "Subsecond" formulae (between Voiturette & F3)** — **minor "Subsecond" formulae** — **Formula 3** — **"Feeding" formulae (under F3)** — **Midgets** — Sportscars, touringcars, etc. (everything with mudguards)
