

## INDEX

**I — 2003 Drivers**

**II — 2003 Venues**

**III — Geographical abbreviations**

### Abbreviations used in the Index

**Bold** : drivers who actually started at least one race. — Standard : drivers who actually drove the car, without starting any race, including tested drivers. — *Italics* : drivers entered (or linked) but never drove the car, even in testing.

° = test-drove in a category upper than the one raced in

\* = due to test in a category upper than the one raced in

.. = linked (or dna) in a category upper than the one raced in

FR = Formula Renault (including Fran Am) — FF = Formula Ford (Zetec) — FSV = Formula Super Vee — FV = Formula Vee — FVW = Formula Volkswagen — F4BR = Formula 4, Brazil — F4GB = Formula 4 Great Britain

Countries & administrative divisions : see at the end of this document.

### Note to the Driver Index

I did not complete, nor tried seriously to, the last column (“did in 2002”). I hope you don’t mind.

### Note to all this document

I systematically favoured the local geographical names (e.g. España, not Spain). When different languages are used, the different names are mentioned in the geographical abbreviation index, but not in both the other ones (e.g. Euzkadi / País Vasco). For the sake of comprehension, the English name is also mentioned (e.g. Deutschland / Germany).
