SINGLE SEATERS 2004

CHAMPIONSHIP CHARTS

HOUILLES, DECEMBRE 2004

published on www.gdecarli.it with kind permission

FOREWORD

All single seater formulae, from F3 and upper, are covered in details : every practising driver is registered.
From Formula Toyota-Atlantic & upper : tested drivers are also registered.
From Formula 3000 & upper : closely linked drivers to these formulae are also mentioned when significative.
Feeding formulae (lower than F3) are quickly reviewed : only the successful drivers are registered — all the race winners when a main series, only the final champion when not.

Principle : Race by race charts with the bare results — no qualifying position or time, nor averages, lap leads, fastest laps, race distance, money won...

Beware : These are not point charts, but compilations of the actual finishing positions — each point system is described, when known, besides each chart.

Special for American Supermodified & Sprint cars :

Only a few drivers are registered, mainly the series winners. If we have tried to list all entrants for all races, it should have led to triple the volume of this file...

Special for hill climbs (& a handful of circuit series) :

But exception (e.g. British championships), sportscars & touringcars are never mentioned, nor the formula cars lower than F3. We only publish the single-seater class ("D" and/or "E") results when official ; if there is no official single seater class, we have revised the results, erasing SP, Tr & minor formulae entrants (but significant overall winners). Hence it is possible to have 2 winners for the same event ! When the case, the overall one gets a bold number 1 while the single seater class winner gets a meagre number 1. It is too the reason why some standings look like uncomplete ones.

Abbreviations used in the charts :

Bold : drivers who actually started at least one race.

Standard : drivers who actually drove the car, without starting any race, including tested drivers.

Italics : drivers entered but never drove the car, even in testing.

Underlined : drivers new in the category.

alt = alternative driver — *dna* = did not appear — *dnp* = did not practise — *dnq* = did not qualify — *dns* = did not start — *dsq* = disqualified — *hill* = hill-climb event (when within a circuit series) — *n c* = not classified — *n ch* = non championship event — *p* = practised — *R* = retired — *Ⓞ* = official Rookie — *s* = suppleant (reserve) driver — *x* = results not available — *** = retired but classified — *+* = visitor to a series — *(* = results outside of the presently registered classes
