

INDEX

I — 2005 Drivers
II — 2005 Venues
III — Geographical abbreviations

Abbreviations used in the Index

Bold : drivers who actually started at least one race. — Standard : drivers who actually drove the car, without starting any race, including tested drivers. — *Italics* : drivers entered (or linked) but never drove the car, even in testing.

° = tests-drove in a category upper than the one raced in

* = due to tests in a category upper than the one raced in

ˆ = linked (or dna) in a category upper than the one raced in

CART = Champ Car — WSR = World Series by Renault — IPS = Infiniti Pro Series — FPA = Formula Palmer-Audi — FF = Formula Ford — FM = Formula Mazda — FR = Formula Renault — FV = Formula Vee — F4GB — Formula 4 Great Britain

Countries & administrative divisions : see at the end of this document.

When a make or region is written in column 8, the name “formula” before it is implicit. (except for *formulae* Monza, Rus & SCCA)

Note to the Driver Index

I designed the last column (“did in 2004”) according to my 2004 index, and completed it here & there.

Note to all this document

I systematically favoured the local geographical names (e.g. España, not Spain). When different languages are used, the different names are mentioned in the geographical abbreviation index, but not in both the other ones (e.g. Euzkadi / País Vasco). For the sake of comprehension, the English name is also mentioned (e.g. Deutschland / Germany).
